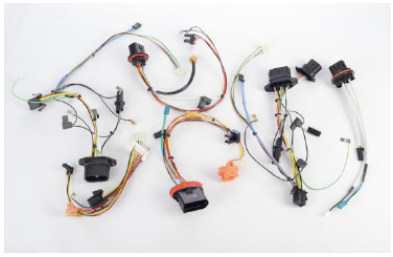
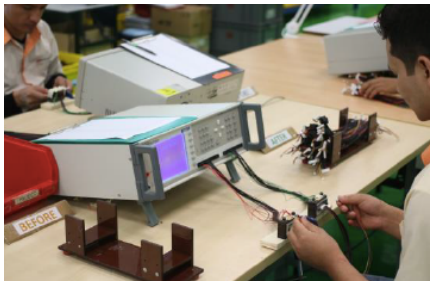
Custom Wire Harness



Custom Wire Harness
OptoElectronix offers Custom Wire Harness services from design to complete harness assembly at competitive pricing for customized low volumes that might not economical to be produced in the US. Or for high volumes where the demand exceeds the factory capacity. Wire harnesses can also be integrated into other box built or PCB assemblies as a one-stop solution.

Scope
The wire harness factory has been in operation since 1980's and caters for a wide range of market segments from small electronic assemblies, home appliances, medical and automotive. Factory size exceeds 24,000 sq. ft.



Materials
Wide range of standard and specialty wires of all sizes available.

RoHS: RoHS Compliant used

Environmental Tests: Tests such as TC, TS, T&H, etc. can be conducted in certified laboratories

Certificate Of Conformance: COC of all materials used are available

PPAP: Full PPAP can be generated if required

Standards and Testing
Factory is certified to international standards:

- ISO 9001:2015, TUV Certified
- IATF 16949: 2016 TUV Certified
- UL Certified
- CSA Certified
- FDA & UL Product Audited
